Abstract of JP2001357140

PROBLEM TO BE SOLVED: To make it easy to acquire information regarding cosmetics formulation ingredients to be used, to select cosmetics complying with a user's request, and to prepare a cosmetic recipe. **SOLUTION:** In the on-line retrieval and preparation support system for cosmetics recipe, parameters of the state, preference, allergies of the skin are inputted by using a customer computer, a skin surface analyzing device, etc., connected to the Internet to refer to a database of cosmetics formulation ingredients and cosmetics recipes previously stored on a host computer, thereby selecting and displaying the cosmetics formulation ingredients optimal to the inputted condition parameters and/or a cosmetics recipe suitable to retrieved cosmetic formulation ingredients. When the cosmetics recipe matched with the inputted request items is not retrieved, the optimal cosmetics recipe is generated newly.
